WORK EXPERIENCE

Tempus Labs

Junior Clinical Data Abstractor June 2019–Present

- Extract, structure and analyze data to construct the foundation of a cancer genomics database
- Work with multiple data sources to extract information to pull into various reports
- Maintain highest quality standards through rigorous QA process to identify and correct mistakes and inconsistencies in abstracted data

RayBiotech, Atlanta, GA

Lab technician, December 2018–April 2019

- Develop membrane assays for simultaneous detection of multiple proteins
- Cultivate and treat multiple cell cultures required to test and validate over 300 antibody targets
- Study director for automated Simple Western western blot services – receive and prepare customer samples while determining which antibodies to run with the services
- Maintain up-to-date records of all files including validated antibody targets, customer service reports, and internal samples and proteins
- Well-versed with Standard Operating Procedures (SOPs) for Simple Western western blot, protein membrane assays, cell culturing, laminar flow hood usage, BCA protein assay, and various other lab duties

Cricket Wireless, Marietta, GA

Store Manager, October 2016–April 2018

- Sold phones and wireless service and assisted customers with technical issues
- Managed a team of four while improving sales performance and customer retention rate with targeted flyers and sales techniques.
- Streamlined and automated the store clock-in/out and store inventory procedure

Center for Disease Control and Prevention, Atlanta, GA

Lab technician, September 2013–May 2015

- Worked alongside PI to develop Luminex Bead based assay for diagnosis of *Toxocara canis*
- Performed various lab duties including gel electrophoresis, western blotting, and Bradford protein assay
- Maintained lab equipment and trained newly hired research assistants

EDUCATION

Bachelor of Science in Biology, May 2016

Emory University, Atlanta, GA
GPA: 3.78
